

# Shift™ your life

There is no need to let hearing loss slow you down as it is a natural part of aging that can begin anytime after 40. Hearing loss creates difficulties that range from the need for increased listening focus to missed conversations and special moments. With Shift you can effortlessly hear everything that you may have been missing. Shift your life – experience the difference today.

shift™  
Make the move

At Unitron, we care deeply about people with hearing loss. We work closely with hearing healthcare professionals to make advanced, purpose-driven solutions available to everyone.

# Discretion is bold

Shift™ is an ultra-small behind the ear hearing instrument that delivers big on style. With up to 80 unique color combinations, you can choose to be bold or discreet with options designed to match skin tone, hair color, personal style or any aesthetic preference.

# & tech-savvy is simple

When you make the move to Shift you can enjoy more relaxed conversations thanks to hands-off automatic technology. Shift's intelligent features adapt to your personal listening environments and focus on the speech in front of you.

Colors may not be exactly as shown

Shown actual size

*With Shift you experience a beautiful hearing instrument that is tiny, virtually invisible and comfortable to wear even with eyeglasses. You don't even know you are wearing it!*

## Shift helps you meet the hearing challenges of everyday life with:

- Clear, true-to-life sounds
- A new break-through technology, smartFocus™, that allows you more personal control to fine tune your listening experience
- AntiShock™ – the world's most advanced feature that eliminates the discomfort of sudden unwanted sounds
- Advanced technology that eliminates the risk of embarrassing whistling
- Easy and discreet adjustments which can be made using the hearing instrument button or the optional Smart Control remote
